# Part A: Pupil premium strategy plan

## Statement of intent

We are committed to ensuring all pupils, regardless of their background or the challenges they face, make good progress and that the teaching and learning opportunities meet the needs of all of our pupils. The intention of our pupil premium strategy is to support disadvantaged pupils to achieve that goal.

We have reviewed the impact of our last pupil premium statement and analysed the data for pupils on our current pupil premium registers. We have also considered the challenges faced by our vulnerable learners and then have used this information to plan how we can best support these learners to reach their full potential.

At the centre of our approach is high-quality teaching, with a focus on removing barriers to learning created by poverty, family circumstance and background.

Our Pupil Premium funding is used to narrow the gap in achievement between those children who are vulnerable to possible underachievement and who attract the funding, and those who do not. We also provide enrichment for children to ensure there is equity of opportunity for all. This plan outlines how we ensure the funding is used to its maximum effect.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<b>Writing</b> Data shows the attainment and expected progress in writing is not consistently being made for all pupils on the pupil premium register. 69% of pupils on the pupil premium register are working below ARE in writing.
2	<b>Maths</b> Data shows the attainment and expected progress in Maths is not consistently being made for all pupils on the pupil premium register. 56% of pupils on the pupil premium register are working below ARE in Maths.
4	<b>Fewer life experiences and opportunities.</b> Financial hardship results in some pupils being at risk not having equal access to the same enriching curriculum as their peers.
5	<b>Pupils emotional health and well-being</b> Our assessments, observations (including Cpoms data) and discussions with families have identified emotional health and well-being needs for many pupils, including a

	reluctance to engage in classroom activities or resilience to recover when learning feels challenging. These challenges particularly affect disadvantaged pupils and have been impacted by school closure to a greater extent than other pupils. National studies support these findings.
6	<b>Children on SEND and PP register</b> 37.5% of pupils on the pupil premium register are also on the SEND register.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
All pupils will make at least expected progress in writing.	Pupil progress meetings and data ensures pupils make at least better than expected progress. Data to show evidence of progress (closing the gap) and attainment having improved in writing for pupils on the pupil premium register.
All pupils will make at least expected progress in Mathematics.	Pupil progress meetings and data ensures pupils make at least better than expected progress. Data to show evidence of progress (closing the gap) and attainment having improved in Maths for pupils on the pupil premium register.
Children will have access to an enriching curriculum to ensure that children on the pupil premium register have the same experiences as other pupils.	Pupil premium money to subsidise the cost of school and residential trips. These children will have the opportunity to access varied life experiences which will improve their skills including communication and literacy.
Support and guidance provided for children and families in managing challenging circumstances including those pupils who need support to manage their emotional health and well-being.	Evidence of learning behaviours will have improved particularly resilience and self & regulation of emotions. As a result of this attainment will improve due to their growth mind-set. Early family support improves the quality of a child's home and family life which enables them to perform better at school.
Targeted support to ensure pupils on the pupil premium register with SEND make good progress.	Appropriate external support is secured for children to support progress e.g. EP cognitive assessments.

	TA support (2:1) to ensure progress for individual pupils on the PP and SEND registers.
