Summer Term in Kestrels

English

We are reading....

During our reading sessions

variety of texts and will really

focus on how we can infer what

a character might be feeling or

thinking. Basing these ideas on

evidence from the text. They

on the development of their

attention on their prosody.

will also be continuing to focus

reading fluency with particular

Kestrels will be reading a

Throughout this term Kestrels will be exposed to a range of different texts that will allow them to discuss and explore rich language. This term we will really be focusing in on how language can impact a reader, and make someone want to read on. Through this exposure we will really look at how we can make our writing exciting through word choice and sentence structures.

Maths

This half term Kestrels will be focusing on their knowledge of fractions. We will also apply our multiplication and division skills into another element of maths. Later in the term, we will be looking at decimals, money, time and geometry. Throughout all these areas of maths we will be apply the taught skills of addition, subtraction, multiplication and division whenever necessary.

Geography

For Geography this term Kestrels will be learning all about rivers, looking closely at different parts of a river. We will be applying different geographical skills, to explore how a river is formed and how it changes over time.

Following this the children will then look at Geography through a sustainability angle, thinking about an impact they could make on the world.

Science

Our science focus this term is on living things and scientific enquiry. The children will be grouping living things based on their scientific vocabulary and any new learning. We will also be focusing on habitats and the impact of environmental change.

have opportunities to apply their

skills learnt in art and computing

throughout this term as well.

version of themselves.

as they grow older.

Later on in the term they

will also look at elements of

how they grow and change

For PE this half term the children will be developing their athletics skills with Mrs Hodge. They will also be swimming once a week to develop this vital life skill.
